

## MEDICAID PROVIDER BULLETIN

July 2018

### Hepatitis A vaccine update

Anthem Blue Cross and Blue Shield Medicaid will now offer the Hepatitis A vaccine under the pharmacy benefit at participating retail pharmacies. Members can also receive the vaccination in a physician office. We will pay the vaccine charge when billed with an administration fee.

Providers who participate in the Vaccines for Children (VFC) Program will receive reimbursement for the administration only. The administration fee should be appended with an SL modifier. Non-VFC providers can receive reimbursement for the vaccine and the administration fee without the SL modifier. Please note that any provider prescribing for vaccines must be qualified to do so and currently enrolled with Kentucky Medicaid.

If you have questions about this communication, please contact your Provider Relations representative or the Provider Services department at **1-855-661-2028**.
